

Fostering entrepreneurial ecosystems

Think Dutchess connects you to the resources that can implement the production, distribution, marketing, sales and customer support required to achieve commercial success.

Dutchess ranks highly on many measures of innovation and entrepreneurship, thanks in part to its wide-ranging mix of industries, including high tech companies like IBM and GlobalFoundries and top-notch higher education and medical facilities.

Proximity | Infrastructure | Incentives

Located less than 70 miles from New York City, Dutchess County offers central access to 68 million customers in major US and Canadian markets via rail, road, and air. Combined with a diverse manufacturing base and higher education centers focused on the future workforce, such as Marist College's Cloud Computing & Analytics Center and Institute for Data Center Professionals, there are many reasons to Think Dutchess for innovation.
